Native

English

C1

15 years in digital & product development, launching 25+ solutions (B2B, B2C, SaaS, on-prem, native) in BI, HealthTech, TrafficTech, Reporting, and E-commerce. Focused now on Gen AI and NLP technologies. Guided the journey from 0 to 1, taking products from concept to launch. I handle discovery and delivery—acting as both product and project manager—coordinating multiple teams, stakeholders, and departments.

Experience

RETABLE

01.2023 – 12.2024

SENIOR PRODUCT MANAGER

USA

<https://www.tabula.io>

Launched Tabula from stealth to public release, including Product Hunt launch; Achieved 25x MAU growth; Introduced Tomat and rolled out an EAP for both products; Implemented Stripe for subscriptions and lifetime licensing; Achieved 20x MRR increase; Embedded GenAI using OpenAI API; Cut lead time by 50%.

ALUNA HEALTH

01.2017 – 12.2022

HEAD OF PRODUCT

USA

<https://www.alunahealth.com>

Initiated pilot projects in multiple hospital networks; Launched Aluna Health app, increasing MAU from 0 to 10k+; Automated clinical data extraction with mCODE standard; Deployed Radiology Dashboard with PACS integration, and summary notes; Released a cloud solution for precision medicine for oncologists and patients; Developed a patient recruitment system for clinical trials.
