EDUCATION

Graduation - Specialist, Analytics

2008 · Saint Petersburg State Institute of Culture · Russia

WORK EXPERIENCE

Product Owner · Retable Inc.

DataTech

Dec 2022 - Jan 2025 - 2 years, USA

www.tabula.io  www.tomat.ai 

Handled combined product and project responsibilities, including market analysis, PMF discovery, key metrics (MAU, LTV, MRR), lead communication, customer case studies, Agile ceremonies, team issue resolution, lifecycle setup, and staff hiring.

- Launched Tabula from stealth to public release, including Product Hunt launch - Achieved 25x MAU growth. Guided the journey from 0 → 1.
- Introduced Tomat and rolled out an EAP for both products.
- Implemented Stripe for subscriptions and lifetime licensing - Achieved 20x MRR increase.
- Boosted product and documentation quality, introduced QA into the team - Cut Lead Time by 50%.
- Integrated and automated usage analytics tools - Doubled engagement metrics.

Head of Product · Aluna Health Corp.

HealthTech

Dec 2018 - Dec 2022 - 4 years, USA

www.alunahealth.com 

Responsible for end-to-end product development and market launch from scratch. Launched 6 precision medicine products-in-a-box (oncology, radonc).

- Initiated pilot projects across several hospital networks.
- Implemented the mCODE standard to automate data extraction from clinical notes.
- Incorporated NCCN guidelines into machine-executable rules.
- Developed a solution for patient-to-clinical trial matching.

Product Owner · Ticon Inc.

TrafficTech

Nov 2017 - Dec 2018 - 1 year, USA

Automated traffic analysis reports, cutting days of manual work, and launched a GIS dashboard for managing map sources and traffic detector data.

Technical Product Manager · airSlate Inc.

DocTech

Oct 2016 - Nov 2017 - 1 year, USA

Rewrote PDF editor from Flash to JavaScript, enhancing performance, stability, and browser/mobile support.

Product Owner · Aluna Health Corp.

HealthTech

Nov 2014 - Oct 2016 - 2 years, USA

Led full-cycle product development and successfully launched Aluna Health on the App Store, increasing MAU from 0 to 10k+. Developed UI solutions and implemented gamification. Built and trained a model to predict habit adoption based on a study, and created a system to infer user routines from activity data.

Technical Product Manager · Improve Labs

HealthTech

Jan 2012 - Dec 2014 - 3 years, USA

Managed complete product lifecycle and launched PowerLineage (iOS + Web), a cloud service for genetic counselors and geneticists, later acquired by Invitae Corp. and rebranded as Family History Tool. Developed a medical questionnaire builder. Integrated genetic test results.

Product & Project Manager · Biarum Inc.

Software Development

Jan 2012 - Dec 2018 - 7 years, Russia

Launched FHIR Sandbox for InterSystems IRIS for Health; Managed development for Harward Library of Evidence; Launched reporting portal for First Line Software; Supported and developed ANCR; Implemented remote scheduling for radiology centers; Launched portal for MIT Living Labs campus.

Project Manager · E-Tickets

TravelTech

Jan 2010 - Jan 2012 - 2 years, Russia

Designed portal (main page and checkout funnel); Launched product and started processing customer orders.
